Resources**

# Our World

**The grass is green,  
The sky is blue,  
The moon is white,  
The clouds are, too.  
The sun is yellow,  
The trees are brown,  
The leaves are red  
When falling down.  
The sunset's orange,  
The air is clear,  
What a colorful world  
We have right here!**

# In the Earth

**On the earth,  
What do you see?  
Grass and trees  
And the deep blue sea.**

**In the earth,  
What do you see?  
Metal and rock  
As hot as can be!**

# Ocean

Take me out to the ocean,  
Take me out to the sea.  
Show me the foamy waves rolling there,  
As I breathe in the salty sea air!  
Let me look, look, look at the ocean,  
See the sea and explore,  
For it's fun to dive from the top  
To the ocean floor!  
Take me out to the ocean,  
Take me out to the sea.  
Show me the currents and ocean tides,  
Let me see where the seaweed resides!  
When you look, look, look at the ocean,  
Look at all it is worth!  
For the ocean covers three-fourths  
Of the entire earth!

# Sand

Sand at the beach,  
Sand at the shore.  
Sand in the ocean  
On the ocean floor.  
Sand in the desert,  
Sand on the ground.  
Sand in a sandstorm  
Blowing around!  
Sand from rock that has  
Crumbled into grains  
Sand in a sand dune  
Shaped by wind and rains.  
Sand on an island,  
Sand in the sea.  
Sand in a sandbox  
For you and me!

# Cave

**I've come to a big room  
Underground.**

**What have I found?**

**What have I found?**

**Walls of rock**

**Are all around.**

**What have I found?**

**What have I found?**

**It's damp and dark.**

**I must be brave!**

**Bats are around!**

**Bats are around!**

**What have I found?**

**I've found a cave!**

**That's what I've found!**

**That's what I've found!**

# River

**By a river I see:  
Fishes swimming,  
Tankers floating,  
Fishers fishing,  
Boaters boating,  
Bridges rising,  
Waters flowing.  
Life on the river  
Keeps on going!**

# Rock

Rock rock.  
Who's there?  
Slate.  
Slate who?  
It's slate. Time to go to bedrock!

Rock rock.  
Who's there?  
Granite.  
Granite who?  
Don't take all rocks for granite!

Rock rock.  
Who's there?  
Coal.  
Coal who?  
If you're coal, I'll warm you up!

Rock rock.  
Who's there?  
Marble.  
Marble who?  
That pretty rock looks marble-ous!

# Fossils

I dug in the ground  
And my hand took hold  
Of a dinosaur bone  
That was very, very old!

I dug in the ground  
And my hand took hold  
Of a rocky leaf print  
That was very, very old!

I dug in the ground  
And my hand took hold  
Of a stone-hard shell  
That was very, very old!

I dug in the ground  
And guess what I found?  
Good old fossils!

# Mountain

**Do you know what forms a mountain when it forms?  
Do you know what forms a mountain when it forms?**

**First the earth starts moving slowly,**

**So that ground once flat and lowly**

**Pushes up and forms a mountain when it forms.**

**Do you know what's on a mountain that we use?**

**Do you know what's on a mountain that we use?**

**We use water, grass, and wood there,**

**And the climbing's also good there,**

**There's a lot upon a mountain that we use!**

**Do you know the tallest mountain in the world?**

**Do you know the tallest mountain in the world?**

**It's Mount Everest, in Asia,**

**Five miles high! (Does that amaze ya'?!)**

**Everest is the tallest mountain in the world.**

# Air

**What can't you see  
And yet it's there?**

**Air!**

**What do you breathe  
Everywhere?**

**Air!**

**Can you live without air?**

**No, you can't!**

**Every person,**

**Animal, and plant**

**Needs the thing**

**That's beyond compare:**

**Air!**

# Desert

**Out in the desert  
So hot and dry,  
You may see a camel  
Or lizard pass by.  
You may see a snake  
Or a fox or an owl.  
A hungry coyote  
May be on the prowl.  
Out in the desert,  
So hot and dry,  
Look and see  
Who is passing by!**

# Rainforest

**I've been walking in the rainforest,  
All among the trees.  
I've been walking in the rainforest,  
Where I saw the bats and bees.  
Parrots, butterflies, and toucans,  
Monkeys and hummingbirds galore.  
Frogs and snakes and spotted leopards  
On the rainforest floor!  
I've been walking in the rainforest,  
All among the green.  
I've been walking in the rainforest,  
Where the plant life must be seen!  
Ferns and mosses and lianas,  
Orchids and honeysuckle, too.  
Oh, how special is the rainforest,  
A magic place come true!**

# Day and Night

The sun is always shining bright,  
Always shining bright.  
It shines on Earth to give us light,  
The sun gives us light.  
When the sunshine comes our way,  
That's the time that we call day.  
We go to school and work and play  
In the light of day.  
The sun is always shining bright,  
Always shining bright.  
So why do we have dark and night?  
Why the dark and night?  
When the Earth turns from the sun,  
We get no light, and day is done.  
We get no light, and night's begun.  
Goodnight, everyone!

# Sun

**If I were the sun,  
I'd have such fun!  
I'd shine so bright  
On everyone.  
I'd be a ball  
Of glowing gas.  
I'd be a star  
With giant mass!  
I'd warm the plants,  
I'd warm the Earth.  
I'd show how much  
My rays are worth!**
